

It is bonfire night today, please remember if you are having fire-works at home to follow the Firework Code and keep safe. Keep your pets inside as many of them are scared of the loud noises.

The school photographer will be in school on Monday 8th November, to take individual and sibling photographs.

This week we were delighted to welcome parents back into school to view children's books with a number of 'Book Looks'. The children's books were available for parents to view across the week and teachers were on hand to answer any questions. We had a very good turnout of parents across KS1 and KS2 who were all very positive about the experience. Thank you to those of you that joined us. We hope to hold more of the same next year and hope to see you there. Don't forget to hand your student update forms back to your child's class teacher. Parents meetings take place next week. Please remember to book/rebook an appointment to meet with the teacher via Google Classroom/Tapestry.

COP26 (Climate Change Summit)

The parliamentary office for Seema Malhotra, MP, invited to schools in the borough to write their thoughts and ideas about the conference. We submitted some excellent letters, with 2 examples included below:

Dear Seema Malhotra,

I have received your email and I want to thank you for the opportunity. I am writing to you, because this could be our last and final chance to stop climate change. I'm asking you if we can work together to stop pollution, global warming and much more. Our world is precious to us and in order to keep it safe and secure. Did you know that a third (1/3) of living species could possibly die. That is almost 3 million species. If we can work together and stop it so we need to work together.

My fears of climate change is losing the 1/3 of the living species could all go in a flash. When we get older how would our future kids see the animals? For example, what if hedgehogs would just be a thing how would we show our kids? My 2nd fear is if we don't act now our world will just crumble into little bits of nothingness. To stop this happening we can use renewable energy like Wind, Solar and etc. As humans can recycle, reuse and reduce plastic. We can stop driving that often so we can stop pollution.

~~Thank~~ Once again, thank you for the opportunity and keep in mind what I've written and thought. ~~Make sure to~~ I hope you include my letter and take note of it.

Yours sincerely,
Hinank Agel

Dear Ms Malhotra,

I am responding to you about your conference with COP26. Please hear my points on how to make our world a better place. If you are reading this to other leaders in the world, please pass this message onto them.

If I am correct, one of the reasons of climate change is because of pollution. So, if you are going to school, or maybe getting home from work, do not take a car. You could either ride a bike, ride a scooter, take a bus or take a train.

Another reason to stop climate change is because of littering. If you see loads of litter outside your door, you could put on some gloves, get a rubbish bag and pick up litter. It will help out the planet. My last suggestion is to re-use the litter you own. You could make so many things out of it and it will look really good for artwork.

Remember this,
to help the world, you need to do your part.

From,

Casey

aged: 10,

From Beavers Community Primary School,

This week in Reception they have been learning about Diwali. They have made diva lamps, rangoli patterns, listened to Indian music and the story of Rama & Sita. On Friday they will be making chapattis

Nursery staff and children dressed up in their special clothes in celebration of Diwali. The children danced to music, made chapattis and created divas using clay. Happy Diwali everyone!

We are looking at some exciting new projects and are asking for a number of donations, if you are able to donate any of the following :
